

KREIENBAUM

KREIENBAUM –
Your medium-sized family-owned
company in Langenfeld

Products of the
highest quality

Extensive
consultation

Customer friendly
service

We are a dedicated team with a strong quality awareness representing exclusively leading international manufacturers. Our close cooperation with physicians and medical staff allows us to realize in-house development of outstanding products.

KREIENBAUM Wissenschaftliche Meßsysteme e.K. was founded in 1997 with a focus on laboratory systems for biotechnology and medicine. After several years, a new focus in neonatology emerged. KREIENBAUM Neoscience GmbH is now divided into the divisions medical technology and Life Science.
